

# INSULATING GLASS

## 中空玻璃

### Product 产品介绍

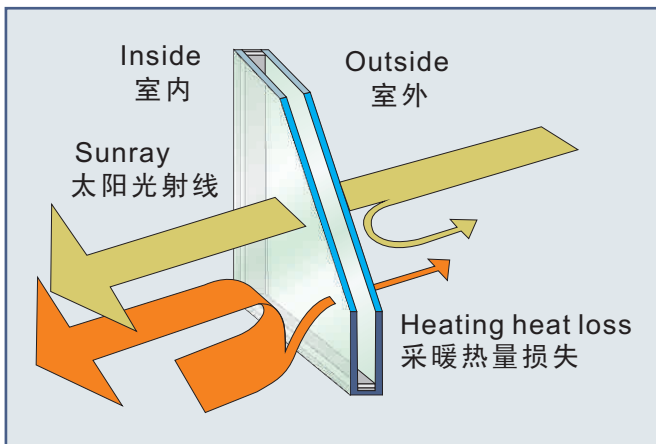

It consists of two or more sheets of glasses ,which are hold together by powerful airtight compound glue, In the hollow space between the glasses ,it is set with alum-inium frame in which stuffed with desiccant in order to dry the air between the glass.

中空玻璃是由两片或多片玻璃组合，用高强气密性复合粘胶二次密封而成，两片玻璃之间用充有干燥剂的铝合金框间隔，使玻璃间形成密封干燥气体腔。

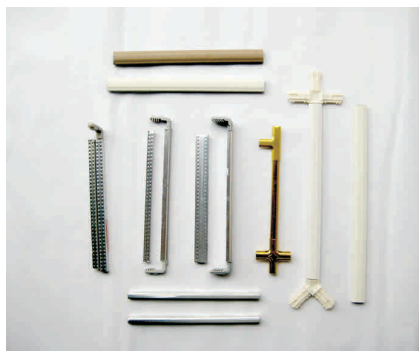

### Features 产品特性

- Energy saving , comfort , prevent heat loss , dew proof.  
节能、舒适、保温、防结露。
- Induction of special gases like argon gas may further improve heat and sound insulation.  
充入氢气等特种气体可进一步提高隔热和隔声性能

Desiccant干燥剂

Aluminum frame interval  
间隔铝框
